About us

Founded back in 1998, the ESSEL bath fittings has been built on the platform of innovative designs, and modern technology to fit into the need of the customers.

Today, ESSEL bath fittings cater to sanitaryware, faucets, sinks, and vanity segments and strive to rapidly expand its wings across the country to become the number-one solution provider for affordable ranges.

Certified with excellence

We are proud to be certified by ISO (International Organization for Standardization) and greenery benchmarks such as Griha that stand as testimonials of our standardized business ethics and eco-friendly practices.

Journey

1998

In 1998, inception of ESSEL by three young minds. With the aim to deliver quality and design.

2000

In 2000, developed the EURO range, by understanding the demands for aesthetics and functionality.

2002

Adopted the early trend of quarter-turn faucets setting a benchmark in the industry with the new designs.

2005

In 2005, introduced concealed diverters for the new age customers.

2007

Conceptualized concealed flush valves with an internal brass piston.

2013

In 2013, an expansion of manufacturing facility to Derabassi, Punjab; met the ever rising demand for ESSEL products. The aim was to develop India's finest; cleanest; ecologically sustainable faucet manufacturing plant.

2017

In 2017, commencement of Derabassi Plant, equipped with water harvesting; watershed management system; electrostatic dust collecting system for blast furnace, grinding and polishing machines.

2018

Instituted sanitaryware division to offer complete bathroom solutions.

2020

In 2020, contrivance of hands-free vanities and foot operative taps; zero contact wall-mounted sensors as our corporate social responsibility to enable INDIA to fight the covid pandemic.

2021

Elevated our commitment to a carbon-neutral future with the installation of 260 KWH solar panels and hazardous waste management systems.

Present

In 2022, inducted auto-polishing robots for elevated quality levels.

SENSORS DC POWERED

ESSEL

The next is now

With technology in charge, the sensor line of bath fixtures is designed to encourage both water saving and good hygiene. The smart sensor eliminates the need for knobs and levers, determines how much water is required, and provides a futuristic experience.

Consumer Guidelines for Faucets:-

In Our constant endeavor to provide innovative and technically excellent products to our customers and to ensure optimum & trouble free performance of ESSEL products for Years, we have evolved a set of consumer guidelines, these guidelines will ensure that you get the best out of your product.

1. Kindly carefully check the products before installation.
2. ESSEL is not liable or shall not be responsible for any such damage/scratch or for improper installation.
3. The installation should be done by trained technician.
4. Water Scaling- Due to presence of minerals and salt in water, scaling is formed on the product if it is not cleaned regularly. The products should be cleaned gently at regular intervals. Also, take extra care to clean the edges and corners of the products because these areas are more vulnerable for scale settling.
5. Clean the aerators from time to time for a perfect foam flow of water from the faucet. The property of water being used is very important for your plumbing installations (Pipes etc.), as well as for your own hygiene. The hardness of water should not exceed 300-400ppm.
6. Acid Fumes- During cleaning of the tiles or floors in the bathroom with cleaning agents which contain acids or chemicals, acid fumes are formed. Because the basic material used in the Faucet is brass and brass being an alloy of copper, reacts with these acid fumes. With this reaction, a green color layer / Black Spots are formed on the products resulting in damage to the outer finish or coating. It is recommended the faucets be covered with cloth before doing such floor cleaning, to protect them from acidic fumes.
7. Scratching while cleaning - Scratching or scrubbing occurs due to hard nature of cloth or coarse cleaning powder being used for cleaning. Use a gentle fluffy soft cloth for cleaning the surface.
8. Atmospheric condition - This applies mostly to salt content in the air in coastal areas, sometime the air reacts with brass and black spots emerge on the surface of product. Therefore, the product is required to be cleaned regularly. At the time of installation of these products, cover the products with the cloth covers provided in packaging or with polythene till the time you actually start using them.
9. Improper/wrong installation of the products automatically terminates and nullifies this warranty and this warranty does not cover problems arising from low water pressure, more than recommended water pressure, and wear and tear, impurities/hardness beyond the norms of drinking water or improper care and cleaning.
10. The warranty shall not be applicable, in case, if the defect is caused due to improper installation, undesirable working environments such as contaminated water, hardness of water beyond the acceptable limits of drinking water or even by improper handling. ESSEL shall repair/replace defective components (after examination by authorized technician) on either chargeable basis or free of charge, as is decided by ESSEL CARE. For better performance of the product, we recommended water pressure should be between 2.5 bar to 3 bar.
11. No. of bends in the pipeline should be kept to minimum. The water travel straight or vertical as far as possible. More numbers of bends are dropping the water pressure.
12. The 25mm pipelines should be used instead of 20 mm for better flow over a period of time when scaling reduces the diameter of pipe.
13. Supply pipe should be provided with vent pipes to prevent air locking in the pipes.
14. All concealed fittings and pipelines should be tested at high pressure before plastering.
15. Buy ESSEL products from company's authorized dealers only.

Consumer Guidelines for Sanitaryware:-

1. Kindly inspect the products at the time of taking delivery.
2. Essel is not responsible for any damage occurred in transit and malfunctioning due to improper installation.
3. While cleaning the ceramic products after installation, please do not use any abrasive cleansers, as they may damage the ceramic surface. Use warm water and liquid detergent to clean the ceramic surface. Always test product cleaning solution on an inconspicuous area of the product before applying it to the entire surface.
4. The wash basin and water closet are heavy and it is recommended that two persons hold it while being fixed.
5. Do not use metal tools or wire brushes to remove any plaster. Use powder type detergent on a damp cloth to provide mild abrasive action to remove any residual plaster or white cement/putty. Clean the outside surface of the vitreous china product with mild soap and warm water. Wipe the entire surface completely dry with a clean, soft cloth.
6. Please do not use cement at any hollow portion and bottom of the vitreous China product may cause the Crack.

Warranty Terms and Conditions:-

1. Warranty period will start from the date of purchase of the product and can only be availed if the **valid proof of purchase is shown to authorize service personnel at time of repairs.** And shall automatically terminate upon the Expiry of the warranty period even if the product has not been installed or not in use after purchase.
2. For all products installed beyond the municipal limits of the jurisdiction of company service center/ authorized service associate, the expenses incurred with regards to deputing the service personnel towards to & fro travel, Conveyance and other incidental will be born by customer.
3. The company is also not liable to pay for any civil or construction work required during installation of new products or replacement/repair of old products.
4. The Warranty period is not renewed or extended on supply of spare parts during the warranty. the company will be at sole discretion, repair or replace any defective components or part of the product with or without cost.
5. During the warranty period and under normal use, if the product / component / part is found to be of faulty due to manufacturing defect, the same will be repaired or replaced upon production of this warranty certificate, without charges either for part or labour or both, the decision of company official will be final for fault qualifies for warranty.
6. In the event of non-availability of components or parts due to any reason whatsoever Company or its Authorized Service provider or the Dealer will not be responsible or liable for any delay that may be caused to service/repair of the Products, no claims financial or otherwise will be entertained.
7. Company and customer agree that company will not be liable for any damages whatsoever arising out of use or inability to use its Company's Products. ESSEL bears no responsibility for incidental or consequential damages arising out of use or inability to use Company Product.
8. By purchasing this product, customer agrees to Company's aforesaid warranty on the product.

9. Customer and Company agree that customer's sole remedy for any defects in goods hereunder shall be limited to the repair or replacement at the Company's option within warranty period after delivery of such goods to the first purchaser, of any defective goods, of which notice of defects is given by the Customer to the Company in accordance with terms of this warranty certificate. The part/product against replaced part/product will be property of Company.
10. Company shall not be liable to Customer claiming the warranty under the terms of condition of this Limited Warranty Certificate, due to defects caused by rodents/pets or in the events of force majeure. The Force Majeure means any disaster, act of God or the public enemy, any accident, explosion, fire, storm, earthquake, electric storms, tornado, flood, casualty, lockout, strike, labor conditions, unavoidable accident, nuclear explosion, national calamity, or any other circumstance or event or by any enactment of law, or by order of any legally constituted authority, or by any other similar cause of the Company or beyond the reasonable control of the party relying upon such circumstance or event.
11. Company and customer agree that ESSEL bears no responsibility for incidental and / or consequential damage arising out of use and for inability to use a product. Company liability will be limited and restricted to the product replacement/value of the product sold. Company under all circumstances shall not be liable to uninstall the defective product or installed replacement product. In case replacement is the only option then the customer has to hand over the defective product to the seller from whom it was purchased and take the replacement product from there.
12. In case of any dispute, this warranty is subject to jurisdiction of Chandigarh courts only.

NOTWITHSTANDING THE ABOVE, THE FOREGOING WARRENTY SHALL NOT APPLY TO THE FOLLOWING:-

1. Any defector damage arising from reasons attributable to the purchaser/third party, including without limitation willful actions, negligence, mishandling, improper storage, improper fitting, misuse or improper repair, faulty installation, accidents and repairs by unauthorized person or maintenance practices used in any manner contrary to any written instructions provided by Essel.
2. The arising from inadequate water pressure, water impurities or improper care and cleaning and voltage fluctuations.
3. In line water filters, should be used with faucets so that any damage to ceramic cartridges without the use of in line filters will void warranty.
4. Intentional and accidental use of cleaners containing abrasive cleansers, ammonia, bleach, hair dye, acids, waxes, alcohol, solvents, bath oil, bath salts or other products not recommended for color and coating and due to improper cleaning or cleaning with coarse cloth also for lading of any material due to sun or chemical exposure.
5. Any goods which after delivery hereunder have been repaired or modified or altered by anyone other than that has been authorized or approved by the Essel.
6. The warranty does not cover any defect or damage caused to the product due to natural wear and Tear.
7. This warranty does not cover installation or any other labour charges associated with the job work or reinstallation of ESSEL products.
8. This Warranty does not cover the damages as a result of disaster such as fire or act of God, including Flooding, earthquake or electric storms and other force measure.
9. Chrome plating damage, Green or black spots due to contact of acids, High TDS water quality, Abrasive cleaning agents and detergents.
10. This warranty does not cover the wear and tear of Rubber parts, Glass Broken, and battery of Sensors,
